ANNOUNCEMENTS.

For Railroad Commissioner.
We are authorized to announce John C. Wood as a candidate for Railroad Commissioner, for the Eastern District of Kentucky, subject to the action of the Republican party.

For Representative.

I am a candidate for the office of Representative of the counties of Montgomery and Meade, subject to the action of the Democratic party.

N. F. VINCE.

We are authorized to announce Mr. W. F. Horton as a candidate to represent the counties of Montgomery and Meade in the Lower House of the General Assembly of Kentucky, subject to the action of the Democratic party.

We are authorized to announce H. M. Woodford as a candidate for Representative from this Legislative district, composed of Montgomery and Meade counties, subject to the action of the Democratic party.

For Superintendent of Public Instruction.

I am a candidate for the nomination for Superintendent of Public Instruction, subject to the action of the Democratic Convention.

C. W. FOWLER.

HIS PLATFORM.

Foundation -- First course: The freedom of a free public education upon the general intelligence of its citizens.

Second course: This general intelligence can be obtained in no other way than through the public school.

Third course: It is the duty of the State to establish and maintain an efficient system of free public schools.

Superintendence -- First plank: Long term: gradual increase until every child has the advantages of a free month's school.

Second plank: Better teachers; selected (a) by more State normal schools; (b) by a summer school for Institute Conductors; and the certification thereof; (c) in cities of the first four classes, Principals shall hold State certificates, and Superintendents State diplomas.

Third plank: Better and compulsory grading.

Fourth plank: Better and cheaper school books.

Fifth plank: Opposition to school monopoly trusts of every description.

Sixth plank: The rigid enforcement of all penalties for neglect of duty by school officials of every class.

C. W. FOWLER.

First Know You are Right. Then Go Ahead.

On the money question at this particular time our greatest minds are at work to solve the problem and to bring to the people such legislation as will be for their best interests. We have found many men who are confident that they have formulated the needed legislation, and that there is no mistake about it. Yet among these great men there are differences of opinion, and while we are willing to give the result of thought and research from great men, we shall withhold any opinion we may now have until we are sure we have the theory which will relieve our present financial needs, and which will, at the same time, maintain our credit with foreign countries.

For the thoughtful reader, one who takes nothing for granted, and who is willing to read, think and arrive at his own conclusions, we append the following article on silver and the laborer from the pen of Lawrence Laughlin, Professor of Political Economy, University of Chicago:

"The withdrawal of permission to coin silver dollar pieces in 1873 one would not think could stop all productions. As money is a means of exchanging goods already produced, it is hard to realize how a matter of exchange can affect all production. But 'Coin' has made the discovery! He says the act of 1873 was a crime because it has made thousands paupers."

A crime because it has brought tears to strong men's eyes, and hunger and pinching want to widows and orphans. A crime, because it is destroying the honest yeomanry of the land, the bulwark of the nation." (p. 112.) In short, the laboring class are ground down by the act of 1873, according to "Coin." Again let us confront "Coin's" statements with the facts and it can be seen once more how utterly untrustworthy he is.

"The Senate report on 'Whole-Sale Prices and Wages' (vol. 1, p. 177) says: Wages reached a high point in the years 1871-1872. After 1873 there was a marked falling off. The ground then lost was gradually regained until to-day wages are about the same point as they were in 1871-1872. 'Coin' must have overlooked this point; but he was probably too much engaged in arranging for his trump procession to the hotel to look up the facts correctly. So it will be well to get this matter perfectly clear before the public. Taking 100 as the basis in 1860, the Senate report (vol. 1, p. 180) gives the

wages reduced to gold, relatively to 100 in the years from 1840 to 1891, using two different methods.

"The fact that this table goes back to 1840 allows us to call the attention to the verification of an economic truth that in times of paper inflation wages do not go up as rapidly as the paper depreciates. Hence the gold value of wages. In the years 1863-1865 fell in a striking way. And if laborers are ever approached by men who advocate more money as a benefit to them, let them appeal to the period of too much money in the paper issues of the civil war as resulting in a reduction of their wages. The reason of it is plain enough; a rate of wages gets customary, when expressed in dollars, as, for instance, \$2 a day without regard to what can be bought by the \$2. Then, if the money gets cheaper and the prices go up, it is a long time before the laborer can convince his employer that he should raise his wages.

"Prices of the goods go up quickly enough, while his wages lag. And just here is the reason the laborer does not care to see free coinage of silver, because by free coinage the prices of the laborer's goods would go up to double what they are now. But under the present situation the laborer has been gaining. He has no interest in seeing prices go up. And yet 'Coin' is constantly lamenting that prices have fallen since 1873. Does he think it a crime if workmen can thereby buy more than in 1873? Why does he lament at something which is of decided advantage to the laborer?

"In brief, of compared with gold a laborer could command in wages more in 1891 than in 1873, for every \$148.3 he got in 1873 he gets \$160.7 in 1891. But the laborer is mainly concerned with how much his wages will buy. In 1891 he gets more gold for his day's work than in 1873, but of still more importance to him is the fact that his money buys more food and comforts. So far as goods have fallen while wages have risen he gains doubly.

Food fell nearly 10 per cent, since 1863, clothing 32.2 per cent, full 23.7 per cent, metals 35 per cent, lumber nearly 20 per cent, drugs 31 per cent, housefurnishings 27 per cent, and miscellaneous articles 10 per cent. This indicates the gain to the laborer, but not the whole gain, for not only have all the goods he buys fallen in these percentages, but his money wages have risen since 1873 by 8 per cent. The free silver advocate has nothing to offer the

workingman.

On the contrary, the panic of 1893, which threw so many persons out of employment these past two years and from which we are just recovering, was caused by the legislation that threatened to bring in the single standard.

Secretary Carlisle authorizes the announcement that he will speak at Covington next Monday, May 20; at Bowling Green Saturday, May 25, and at Louisville Tuesday evening, May 28. On the 23d he will be present, as previously announced, at the sound money conference at Memphis. The people of Kentucky will be glad of these opportunities to hear Mr. Carlisle on the issue which is now absorbing attention in the State, and there is no man to whom they would accord a more respectable regard.

Bradstreet's weekly review of trade says that there are "distinct and in some instances more pronounced evidences of improvement in business, notwithstanding the increase of the wave of industrial discontent and strikes for higher wages, always the accompaniment of an upward tendency to prices."

The pay rolls of the Cincinnati carriage manufacturers are 20 to 35 per cent above those of a year ago. The Cincinnati Iron and Forge Company and the Queen City Forging Company advanced wages 15 per cent. The Oliver Iron and Steel Company, of Pittsburgh, advanced wages 10 per cent, as did also the Carrie furnace, at Pittsburgh.

An encouraging feature of the industrial situation is a renewed foreign demand for American railway securities at advanced prices. The buying will remove the danger of gold exports and will turn the flow of gold toward this country.

The Legislative races are becoming interesting and will be more so as soon as the people have become firm in their convictions on the monetary question. The people can have an expression on this subject only in the choosing of a representative.

The free silver meeting at the Court House on last Saturday afternoon was well attended. The people are not decided on the monetary question yet, and do not propose to rush into it until they know what they are doing.

Right Arm Paralyzed Saved from St. Vitus Dance.

"Our daughter, Blanche, now fifteen years of age, had been terribly afflicted with nervousness, and had lost the entire use of her right arm. We feared St. Vitus dance, and tried the best physicians, with no benefit. She has taken three bottles of Dr. Miles' Nervine and has gained 31 pounds. Her nervousness and symptoms of St. Vitus dance are entirely gone, she attends school regularly, and has recovered complete use of her arm, her appetite is splendid."

Knighthood 4186, Record 2:29 1/2.

Five years ago this horse was purchased as a 2-year-old from Gen. W. T. Withers, of Lexington, one of the most noted breeders of the trotting horse in America.

Knighthood (by Gen. Withers' books) was the fastest two-year-old with one exception of his entire lot of forty head. He was one of the choicest bred, also being by Aberdeen, son of Hambletonian 10, out of Widow McGree 2:29. His dam by Alamo (son of Almont, son of the great Abdallah 15) Alamo's dam was also by Abdallah 15 (the greatest "breeding" son of Hambletonian). Knighthood's grand dam is the noted Queen Dido (dam of Red Wilkes, the greatest Wilkes horse and the leading sire of the world, having over 200 sons and daughters in the 2:30 list). Knighthood's record, 2:29 1/2, was never a limit of his speed. He has repeatedly trotted better than 2:20, and has shown a 2:10 gallop. Had he been in the hands of an expert on a good mile track he would have to-day a mark of 2:15, or better. In color, conformation, style, speed, stamina and courage he stands without an equal in Eastern Kentucky. Being bred to Hambletonian 10, he has the ability to transmit his good qualities and get from a mixed lot of mares a uniform lot of colts. His foals are fine lookers, have heavy manes and tails; are useful general-purpose horses and are good sellers. He makes the season of 1895 at Beau Bros' establishment at the ridiculously low fee of \$10 for live foal and \$200 groom fee.

Better For Years.

Smitsville, Ky., April 29, '95. I have been troubled with pimples and have taken different kinds of medicines which did me no good, until I began taking Hood's Sarsaparilla. I have taken three bottles and feel better than I have felt for years. My father takes Hood's Sarsaparilla and thinks it is the best medicine he ever tried.

Miss Lida Henders.

A negro boy, about sixteen years old, named Cub Wilson, has been going the rounds in this city and when an opportunity offered would slip in to a dining room and help himself and then make his escape. On last Sunday he tried the same trick at the residence of Mr. W. P. Schooler on Locust street, but was seen and a foot race followed. The negro was overtaken and advised to leave the city. He boarded the first west bound train for other quarters.

Stability in its approach.
Two often, when the situation becomes fully known, it is too late. That is true of Kidney Disease. A little weakness—a little lameness of the back. These excite no attention. Suddenly acute symptoms supervene and death ensues. It is like the fatal spring of the wolf. Let us reason together a little.
1. On the slightest symptoms why not see Dr. Fenger's Kidney and Bladder Cure?
2. Because it is guaranteed to satisfy or money refunded. So you only pay for benefit actually received.
3. If you should be mistaken in fearing kidney disease, it will do no harm and has at any rate cleansed your blood, given you renewed life as it were, cleared your head, toned up your stomach, invigorated your nerves and blood, and insured you against the disease you fear. Take one bottle to-day.

Ex-Gov. J. J. Chase, of Indiana, died at Lubec, Maine, on Saturday. Some weeks since Gov. Chase, who was a minister in the Christian church, had gone to Maine to hold some evangelistic meetings, but was taken sick with erysipelas. He was taken to be convalescent, but a few days since the disease assumed a malignant form and death ensued.

C. E. NOTES.

Every Christian Endeavorer should read the "Model Committee Reports" in the Golden Rule for May 9. They are full of good suggestions.

The Chaplain of the State prison at Frankfort reports that one hundred members of the prison society participated in an uplifting sunrise service on Easter morning, the cells having been unlocked for this service. Many souls were touched by the exercise.

Do not forget that the State Convention meets at Louisville, May 24-26. There will be an informal meeting Thursday evening May 23.

The Blue Grass excursion will leave Lexington over the L. & N. railroad at 1:55 p. m., May 23. One fare for the round trip. Parties leaving here on the 10 a. m. train can join this excursion. All who expect to do so should notify at once Dr. Howard VanAntwerp, of this city, or Mr. J. C. Taylor, Lexington.

All delegates should send their names to Miss Lucie Shaeffer, 1508 New Broadway, Louisville, in order that they may be assigned for free entertainment.

The Endeavor meeting of the First Presbyterian Church, Sunday night, was led by the pastor, at which the following suggestions were made as to how Endeavorers can help their church:

By being present at every service of the church.

By taking part in the services heartily. For the preaching services joining in the singing; for the Sabbath school joining in the responsive reading, the singing and the lesson review; for the prayer meeting, having a verse to read or quote or some thought on the subject; for the C. E. meeting, keeping faithfully the pledge. Read it.

By preparing beforehand, by earnest prayer for God's help and blessing and by careful study of the lesson and subjects assigned.

By trying to bring others and making the meeting so interesting that they will want to come again.

Above all, by being true to the Lord Jesus Christ.

Louisville Tobacco Market.

Sales on our market for the week just closed amount to 3,219 hds., with receipts for the same period 2,282 hds. Sales on our market since January 1 amount to 76,834 hds. Sales of the crop of 1894 on our market to this date amount to 79,798 hds.

The market for good to fine burleys and also all color grades in fair order and has been higher this week than any time during the season. Common sorts are about as they have been. The sweating season is now at hand and all shippers should be careful, as regards order as tobacco in very fine order is being neglected.

The following quotations fairly represent our market for burley tobacco. (1894 crop.)

Trash. (Dark or damaged tobacco) \$1.50 to \$2.75.

Common colory trash, \$3.00 to \$3.75

Medium to good colory trash, \$3.75 to \$5.50.

Common lugs, not colory, \$2.50 to \$4.00.

Common colory lugs, \$4.50 to \$5.50.

Medium to good colory lugs, \$5.50 to \$8.50.

Common to medium leaf \$6.00 to \$10.00.

Medium to good leaf, \$10 to \$15.00.

Good to leaf, \$15 to \$18.

Select wrappy leaf, \$18 to \$23.00. GLOVER & DURRITT.

Cincinnati Live Stock Market.

HORSE AND TRACK.

Monroe Salisbury will start East with his stable about May 20.

Rosalind Wilkes 2:14 has foaled a bay colt by Baron Rose, son of Stamboul 2:07 1/2.

Budd Doble is now at Terre Haute preparing his horses for their campaign in 1891.

May Homer, 2:18 1/2, by Homer changed hands in Europe recently, \$7,600 being paid for her.

Angelina, the dam of Online 2:04 and Outonian 2:07 1/2, has foaled a sister to those two great performers.

Rubenstein 2:08 can pace fast enough this spring to justify the belief that he will give any pacer a race when he is ready to start.

John Green, Dublin, Cal., has decided to breed Stewindler, dam of Directum 2:04, and her daughter Electrina, 2:30 to Direct again.

W. Andrews has shipped his stable of horses from Jewettville, N. Y., to Philadelphia. He has the pacers Mascot 2:04, Whirligig 2:10 and Stately 5:18.

The matter in regard to trots at the Lexington Fair, for 1895 has been finally settled, and the decision at a meeting of the directors last week was that no trotting races would be had.

There are four horses who have as many as twenty pacers in the list. Sidney is first with twenty-two; Alcantara second with twenty-one; Gambetta Wilkes also second with twenty-one, and Red Wilkes third with twenty. These horses are all trotting-bred, which goes to show how many trotting-bred pacers are being developed.

At a public sale of saddle horses in New York recently at which good prices were a feature, the decided winners having a long tail brought the highest prices of the sale. It is to be hoped this occurrence is a sign that the dock-tailed English walk-trot and canter-saddlers are being relegated to second place, where they belong, when compared with the graceful American saddle-gaited horses.

A writer gives the following method of dealing with a puller: For a puller, or one that has a habit of bearing hard on the bit, start him slowly with loose rein, talk coaxingly to him to keep him going slowly as long as you can. When his pace gets too fast, pull him in gently, whether you have gone a rod or a mile, but never hold him with a heavy hand while driving, for the harder he is held the more he will pull. If he is restive and nervous at being hitched up and a hurry to go, back him out and drive him in two or three times, then tie and let him stand an hour or two, then drive to the door and tie, leaving him awhile, then drive back to the stable and take him out.

Rev. Charles E. Nash, editor of the Kentucky Baptist at Louisville, Ky., was in trouble at the Washington Baptist Convention and was put under peace bonds because he threatened to whip a man who had loaned him \$200 in Kentucky some years ago, and who sued him for the money.

Mr. Nash is well-known in this city, and the facts we gather there in regard to this unfortunate affair are about these:

Some three years ago Mr. Nash borrowed from a man named Barton at Falmouth \$200. Mr. Nash had not paid the debt; in fact, knowing that the Kentucky Baptist went into the hands of a receiver, we conclude that he had not been in a position to meet the obligation, and Mr. Barton instead of bringing his suit against him in Louisville, as he should have done, sought to humiliate Mr. Nash by bringing suit against him before strangers and while he was attending a great gathering with representative Baptists. Such a course enraged the preacher and because he proposed to hold Barton to a strict personal account he got so angry and swore out a peace warrant. Mr. Nash should not have threatened to have licked Barton, neither should Barton have been frightened.

Turnpikes in Trouble.

Commonwealth's Attorney John S. Smith has filed information against every turnpike in the county for failing to make a report of their assets to the County Clerk for assessment between the 15th of September and the 15th of October last. There are thirty-five or forty pikes and the fine for each is from \$10 to \$50. See how will come up before the next term of Circuit Court—Kentuckian Citizen.

WAGES ADVANCING.

New Signs of Prosperity All Over the Country.

Important additions are being made to the list of voluntary advances of wages by manufacturers. Almost every day reports new advances.

Fall River Iron Works Mills (cotton goods), Fall River, Mass.; increase of a little more than 10 per cent.; 1,800 employees.

American Linen Mills, Fall River, Mass.

Worumb Mills, Lisbon Falls, Me.; increase of 10 per cent.

Williamson Linen Company, Williamson, Conn.; a general advance of 5 per cent.; nearly 2,000 employees.

Building Brothers & Co.'s silk mills at Rockville, Conn.; increase of 5 per cent.; 400 employees.

Grosvonordale Cotton Company, North Grosvonordale, Conn.; an advance of 10 per cent.; 1,200 employees affected.

E. W. Chapin & Co.'s woolen factory at Chapiaville, Mass.; increase of 10 per cent.

United States Bunting Company, Lowell, Mass.; an increase of 10 per cent.

The Lakeside Manufacturing Company, of Leicester, Mass., the Boston Commercial Bulletin says, "will shortly restore the 10 per cent. reduction which went into effect a year ago."

The United States Cotton Company, Central Falls, R. I., increase from 5 to 10 per cent.

All the cotton factories in Fall River, Mass.; increase of 12 1/2 per cent. More than 25,000 employees are affected.

All the cotton factories in New Bedford, Mass.; advance of about 5 per cent., affecting about 26,000 operations.

The Quinebag and Danielsonville Manufacturing Companies at Danielsonville, Williamsville and Wauregan, Conn.; increase of wages. More than 4,000 operatives affected.

B. S. Stevens, manufacturer of woollens at Quinebag, Conn.; increase of 15 per cent.; 200 employees affected.

The Slater Woolen Company, of Webster, Mass. An increase has been ordered by the same company in its cambric mills at East Webster. In both mills 1,500 employees are benefited.

John Chase & Sons, manufacturers of cassimeres at Webster, Mass., have increased the wages of their operatives by 10 per cent.

Vassalborough Woolen Mills, near Augusta, Me.; increase of 10 per cent.

Burke Holl Company, Rowley, Mass., increase of 10 per cent.

Weybosset Woolen Mills, Oineyville, R. I., wages increased in certain departments.

Dyerville Manufacturing Company, Dyerville, R. I., increase of 5 per cent. That these voluntary increases of wages indicate an improvement in business and a general return of prosperity is generally admitted. But the newspaper comments on the subject exhibit wide difference of opinion with regard to the connection between this upward tendency of wages and the new tariff. Some claim that the new tariff is to be credited with direct beneficial influence on the labor market, while others contend that the improvements have taken place in spite of the tariff, not because of it.

Your Physical Condition
Needs attention at this time. If you are tired, weak and nervous, it is clear that your blood is impure, and without doubt there has been too much overwork or strain on brain and body. The course of treatment for such a condition is plain and simple. The blood must first be purified so that the nervous system, and in fact all the organs will feed upon pure blood. Intelligent people without number have testified that the best blood purifier, nerve tonic and strength imparting medicine is Hood's Sarsaparilla. Nervousness, loss of sleep and general debility all vanish when Hood's Sarsaparilla is persistently taken. In a word, health and happiness follow after taking Hood's Sarsaparilla. 42-1t.

Big Cattle Shipment.
The one hundred and fifty-three fat cattle sold by Mr. J. C. Caldwell to Sam Embury, agent for Nelson Morris, were shipped Friday morning by special train to Boston, Mass. They occupied nine freight cars, and attracted quite a number of persons to the freight depot to see them loaded. It was one of the best looking bunches of fancy beefs that ever left Boyle county. They averaged 1,425 pounds (live head) and the scrap of paper that was turned over to Mr. Caldwell by Mr. Embury, in exchange for them, was worth just \$11,668.61, the cattle having been sold at \$4.35 per hundred pounds.—Danville Advocate.

An Old Will Found.
Some time ago, Dr. Algernon Sidney Allen, formerly of this county, died at his home in Lexington. He left six children and Dr. Chilton, of this city, and the latter's sister were the nearest kin and heirs to that part of his property that was not inherited by the dead man's wife. Not long ago Deputy County Clerk Fox, while looking through some musty old papers, found a will signed by Dr. Allen dated 1860 and witnessed by Gen. M. Jackson and Will P. Wigan, who were at that time deputy clerks in the office, which bequeathed all of his property to his wife without reservation.—Winchester Sun.

Cut Worms.
Cut worms are fearfully bad in some parts of this and adjoining counties. They have made a clean sweep of some tobacco beds and it is too late to repair the loss.—Lexington Gazette.
